

The Gender Sensitisation Committee organized a Talk by Dr. Seema Singh on Sexual Harassment at Workplace : Modes of Redressal for the benefit of our students. Dr. Seema Singh, a faculty member of Campus Law Centre 1, delivered the Talk on 28.9.2018. She highlighted how despite a large number of legal provisions in aid of women, sexual harassment at workplaces is rampant. Therefore she called upon a change in social attitude and responses towards this phenomenon. She discussed in detail the various provisions empowering women students and employees in this regard. She shared with students modes of identifying harassment, need for collecting evidence, reporting, following the course of investigation and taking recourse to legal and institutional redressal.

She discussed a few case histories as well. Our students of both genders interacted with the speaker, raised questions and clarified their doubts pertaining to the issues raised. It was a fruitful interaction and students benefitted from her domain knowledge.
