The following points were discussed/ decided:

1. The format of data representation was given to all the members and they were further requested to tender the required information in the given format.
2. It was decided the review of the result of the different departments shall start from 2014-15. In other words 2014-15 to be treated as the base year so that the results of the students passing out in 2016-17 can be adduced, added and analyzed to highlight the pros and cons of the results.
3. Further, as analyzed from the format collected we need to finalize names of three colleges with whom we can compare the result data of our college. So the committee unanimously decided the names of RLA(M), MLN (M) and MLN(E) . For

courses, which are not available in these colleges like BBE and Psychology, Computer Science, the departments will compare data with the colleges in near vicinity.

4. In the meeting, all the members of the committee were requested to be ready with the relevant information and data for the meticulous analysis.

5. It was also proposed and accepted in the meeting that one non-teaching member from the administration should be added in the result review committee so that the tabulation of the results and the relevant information from the administration can be procured smoothly and immediately.

6. The convener of the committee was also requested to cross check the authenticity of the information/format given for the preparation of the data.
