Student Editor :

Message

I am pleased to know that Aryabhata College, University of Delhi, has been fast emerging as a premier institution of learning, fostering excellence in teaching, research and capacity building.

The College, in a short span of time, has carved a niche for itself, given its commitment to academic rigor, student potential, infrastructural growth and efficient administration.

I am confident that with the collective efforts of the College fraternity, it will soon attain greater heights of success. I hope that the College magazine "Reflections (2018-19)" presents a perfect blend of creative writing, College achievements and its future plans.

I congratulate the editorial team of the magazine and wish the College fraternity all success in their future endeavours.

Yogesh K. Tyagi
Vice Chancellor

From the Principal's Desk

"A dream doesn't become reality through magic; it takes sweat, determination and hard work."

These words for me have profound depth and veracity. As Principal of Aryabhata College I am proud to state that in a modest time span of five years Aryabhata College has been successful in carving a niche for itself as a spirited, thriving place of learning, growth and holistic development. Scholastically our students have done well and by their active participation in literary, sports, dramatics and cultural events they have brought laurels to the college.

The college magazine 'Reflections' itself testifies to the aesthetic sensibilities of our young students. Young in spirit and aspirations our student body is remarkable in its astuteness, perseverance and commitment to excel. I also feel immensely happy that soon we would have our four storey twin College building in addition to the additional storey being constructed on the Taregana block. The students would greatly benefit from infrastructural amenities like projector enabled classrooms. Not only this, the college also has several new labs in the offing while some like Psychology lab and additional Computer lab are already functional. The college also has new well equipped conference rooms to facilitate the hosting of academic and cultural events. Moreover, the college also has a Placement cell which we hope will help to enhance on-campus placements. It would be of great benefit for students and together we hope to see many students being favourably placed. For those students who have graduated, an Alumni Association is soon going to start functioning and it would give us immense pleasure to interact with our alumni students.

The college also strives to provide its students with an edge above the rest. In keeping with this philosophy several add-on courses have been conducted in our college in the recent past. Done in collaboration with Bombay Stock Exchange, NIESBUD and NSDC, Ministry of Skill Development and Entrepreneurship these courses have been a great success. Currently two Add – on courses are being run by the college one with NIESBUD and another a French Language Course in collaboration with Alliance Francaise, Delhi.

Indeed, it is endearing to be the head of an institution which is vibrant and pulsating. We promise to ensure a healthy environ for our students to flourish and realize their potentialities to the zenith. In their success lies our pleasure. In the end I would like to emphasize that our students should remember that humane conduct is the founding stone for the road to success.

Dr. Manoj Sinha
