### Meet Summary

On April 21<sup>st</sup>, the department of business economics held its annual alumni meet in an offline mode first time in a while, following all the covid protocols. The event was open to all the fellow alumni of the BBE department graduating from Aryabhata College(Formerly RLA Evening) over a decade or two. Around 50 alumni gathered from different years gathered for the event.

The event begins with remarkable words for the alumni by our principal Mr. Manoj Sinha. He greeted the alumni and thanked them for coming despite their busy schedule. He talked about the memories created in the college and how things changed and congratulated them for the new heights our BBE department has achieved.

All the alumni then introduced themselves through a game in which they had to answer one question written on the chit they pick from the bowl after introducing themselves. Students were amazed and at the same time proud to see the achievement their alumni have achieved in life.

They talked about their college days and remembered the memories made while they were still a student. They talked about the mistakes they made and how it helped them in life. Students got the opportunity to talk to seniors from the same field and got insights about what options can be explored in the near future. They got some important connections from successful people which might help them in like Dumb Charades.

After the fun games, they talked about there work life in general and gave tips on studying abroad too.

A warm meal was prepared for all the students and the alumni in the multipurpose hall. After having lunch and clicking some memorable pictures. They bid their goodbyes. A small thank you card with a happy note was prepared for them as a gratitude for their guidance.

The event was a great success and well planned. All the students and professors enjoyed the insightful event. And all the alumni were able to went back to their college days for a while.

It was a very engaging event and helped all the BBE students to acquire something out of it.
