

Seminar on Taxation System and Tax – Free Investments

The Business Economics Department of Aryabhata College organised a two – day seminar for the students on 3rd – 4th October 2018. The topic of the seminar was Taxation System and Tax Deductions on Investments. Dr. Vinay Kumar, Associate Professor and Head of Commerce Department, Aryabhata College was the speaker invited to address the eager attendees, comprising of students of all the Business Economics batches.

Dr. Kumar started his lecture by introducing the basics of ‘Tax’ to the students. Eventually, he built up the topic and taught an overview of the tax structure. The students asked their doubts and queries. It was a communicative seminar. At the end of his lecture, Dr. Kumar pointed out that he would like to continue with this discussion on the following day. Since the students were interested in knowing the complete information about the topic of the seminar, it was decided that the seminar would be extended for another lecture.

On the 4th of October, the speaker, Dr. Kumar continued with his lecture and explained the provisions under which one can receive a tax deduction or rebate on investments. Again, students found it very interesting to learn about a subject they had not studied in their course content.

The seminar concluded with an energetic ‘thank you’ to Dr. Kumar.
