

**ARYABHATTA COLLEGE**  
**THE FINANCE AND INVESTMENT CELL**  
**WEBINAR AND COMPETITION REPORT**

**Chief Patron:** Prof. Manoj Sinha

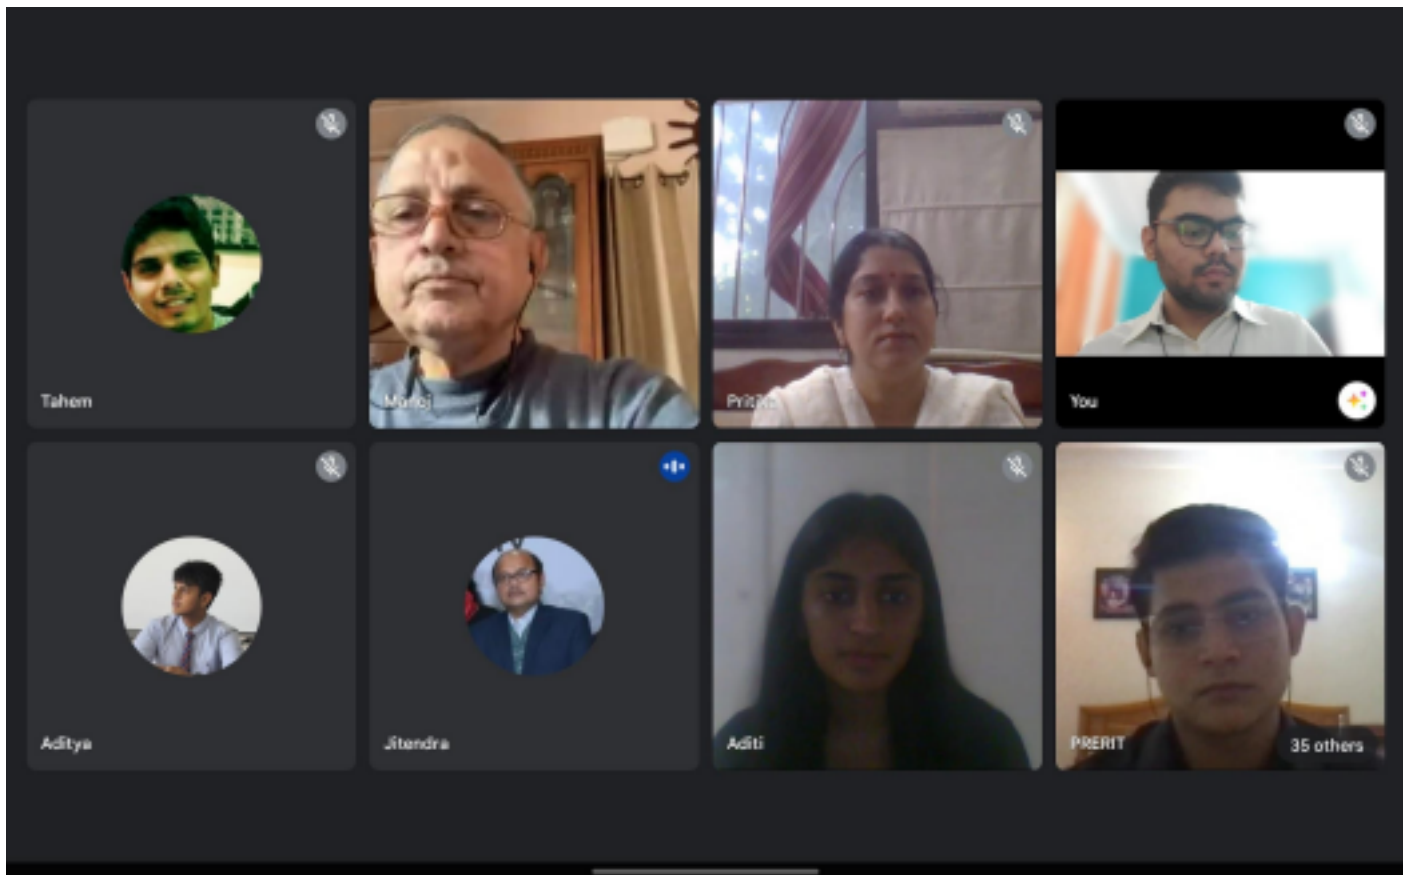

**Convener:** Prof. JK Singh

**Coordinator:** Dr Pritika Dua

**DATE-:** 13th-19th November 2021

The Finance and Investment Cell, Aryabhata College, in collaboration with Mesha, an online finance learning platform, organized a week of exciting competitions from 13th November 2021 onwards. A webinar was also conducted on the topic 'Investing in Cryptocurrency'. More than 1000 students participated in the week-long series of events.

In this era of modernization in an attempt to spread financial literacy, the Finance and Investment Cell of Aryabhata College organized a webinar with Mr Tahem Veer Verma, co-founder of Mesha. In this era of globalization and modernization, cryptocurrency has emerged as one of the best avenues of investment. Now being a highly famous avenue, it comes up with several doubts. Moreover, as it is the newly emerged avenue, hence it becomes more cumbersome to understand this highly complex system of crypto.

The session began with a note from our Convenor, Prof. JK Singh. He introduced the theme of the session to the students and mentioned the importance of keeping oneself updated with trending and prevalent issues such as cryptocurrency to save oneself from frauds and traps.

Following him our Principal, Prof. Manoj Sinha, expressed his gratitude to Mr Tahem Veer Verma for sparing his valuable time to enlighten us all about the importance of investing in cryptocurrency. He also highlighted the importance of personal investment and financial literacy.

At first, Mr Verma introduced us to the system of blockchain and cryptocurrency. Blockchain is a decentralized, distributed and public system which records all the transactions made in cryptocurrency. Cryptocurrency is a type of decentralised money that is used as a medium of exchange. Mr Verma told how this cryptocurrency has become a centre of sight because of its decentralised nature.

Talking about the crypto investment, he gave a clear green flag to investing in the cryptocurrency by giving us several pieces of advice on how to evaluate crypto before investing. According to him before investing in any crypto we should go through the team and their project. A proper evaluation of the crypto coins before investing can surely give us great benefits. Thereafter he told us about how the Indian government is quite negligent to accept these digitally designed currencies because of their un-centralised and hectic nature.

He advised the students to start investing money not only in cryptocurrency but also other avenues to diversify their investment portfolio. According to him as inflation is on spike rise, financial literacy and our investment steps can not only secure our future but will also make us self-sufficient

Discussions with Mr Tahem Veer Verma proved to be very insightful and motivating as they helped us liberate our minds toward the real recognition  
The conversation generated a wave of optimism which was visible when our audience thanked him for such inspiring words.

COORDINATOR  
FINANCE & INVESTMENT CELL,  
ARYABHATTA COLLEGE

**Prof. JK SINGH**  
CONVENER  
FINANCE & INVESTMENT CELL,  
ARYABHATTA COLLEGE

Following the webinar, the two competitions, Hot Stock and Vitsangram were officially launched. Hot Stock, a mock-stock competition, allowed the students to experience the thrill of the free markets without having undergone the associated risks of the stock market. It was an educational experience for the participants and they learnt about the functioning of the markets. Vitsangram, an online finance quiz competition, was a brilliant opportunity for the participants to test their financial acumen and knowledge to compete with the other participants.
