Our Principal Sir declared the event open and the participants were addressed. After this Prof. J.K. Swavalamban The Startup Club

WHY ARE WE HAVING THIS GROUP DISCUSSION ?

In our country, the image of startups has been generally been projected as a loss-making gamble, which generally compels many aspiring entrepreneurs to give up their dream of becoming industrialists and self-reliant. Some insecurities of proper funding, managing huge losses, and recognition or burden of taxes also force their creative and innovative ideas regarding startups to die.

As Swavalamban, The Startup Club aims at polishing the qualities and developing the skills that are essential for aspiring entrepreneurs, we consider it our duty to have knowledgeable discussions regarding startups, entrepreneurship, and skill development so that it leads to spreading awareness among the youth of the nation regarding the same and make this culture thrive even more.
