

DELVE'23

Sankalp- The Management Society organized **DELVE-THE ANNUAL MANAGEMENT EVENT** in the college premises on **2nd May 2023** and all of this unwrapped into a bunch of seminars, workshops and competitions.

Invasioners

The event kicked off with "INVASIONERS" A Business & Management related competition conducted on 1st and 2nd May.

Out of a pool of participants , top 5 teams made it to the offline Round. It started in the Seminar room of our College at 11:00 AM. Mr. Sanket Shekhar, teacher coordinator of Department of Management Studies judged the overall performance of teams and was facilitated with a souvenir.

Round 2 and Round 3 were consecutive in nature. A solution for real life case study on Intellectual Property Industry was made by the teams. And for the next round a PowerPoint Presentation was made and Explained to the judges within a stipulated time. A real competitive spirit was truly seen by the teams as the sole focus of participants was to create an impactful PPT and pitch.

Participants eagerly looked forward to results being out and results were announced by our Judge. Team A from SRM university had Shourya and Harshit as participants winning 2nd prize and Team B from Aryabhata College DU , Paavan and Pratik won 1st prize. Ronak Badgainya (project head) handled and supervised the competition with the Sankalp team perfectly, It ultimately led to a huge success of DELVE'23.

Seminar on 'Importance for high income skills for college students'

A seminar on “Importance for high income skills for college students” with **Mr. Rohit Soni**, a TEDx speaker and a renowned copywriter from 11.30AM onwards in **Activity Room**. The purpose of this session was to enrich fellow students about boosting career prospects and increasing earning potential.

The session was inaugurated by teacher In-Charge of BMS Department, **Dr. J.K. Singh** and a welcome address was delivered by him on behalf of our hon'ble principal Prof. Manoj Sinha. Mr. Rohit addressed the youth and motivated them with the help of his own life story and how he overcame the stress of uncertainty.

As we proceeded further, students got a deep insight into a lot of things like-

-
1. Invest in skills which are growing and trending, for eg. copywriting, graphic designing, video editing, SEO, Ads.
 2. Learn to manage the stress of academic pressure. It should act as the 'fuel' to inspire.
 3. Adapting and learning is very important, especially now, when Chat GPT and Artificial Intelligence (AI) is a threat to almost every job.
 4. Expectation of a company from a fresher:
 - Communication skills
 - Knowledge beyond textbooks
 - Confidence
 - Leadership skills
 - Versatility and ability to engage people
 - Team spirit

He stressed upon the importance of soft skills in the corporate world. He quoted a proverb by MS Dhoni -

Always love the process, and not the product.

For him, the result is always the by-product of the process. It is not always sunny, but we should keep working hard. One thought that should haunt everytime is 'How can you move forward?'. The session was very interactive and we witnessed participation from 60+ students across different courses. Students asked their doubts and were satisfied with his answers. Overall, the session was filled with knowledge and value which could be seen in the appreciation we got post-session from participants.

The session ended with a vote of thanks delivered by our Coordinator, **Ms. Priya Choudhary**.

Workshop on 'Getting Career Success through Emotional Resilience

Another workshop on "Getting Career Success through Emotional Resilience" in collaboration with 'Happimynd" was conducted after the seminar in the Activity Room, Aryabhata College. The speaker for the workshop was **Ms. Tavishi**, an expert in the

field of psychology.

Our teacher coordinator **Ms. Kavita Gautam** honored the guest for her auspicious presence, followed by Dr. J.K. Singh, addressing the audience. There were about 90-100 students attending the workshop and it was a much-needed one for all of them. The workshop started, when Ms. Tavishi raised the question, "What is Emotional Resilience?". Some of the attendees did try to answer but couldn't comprehend any significant difference.

She had all the resources with her and even made the students go through a questionnaire and henceforth, critically analyze the report so that we can measure our level of emotional resilience on the Resilience thermometer.

At last, a memento was presented to Ms. Tavishi and was appreciated for her presence at Aryabhata College by our teacher coordinator **Ms. Kavita Gautam**. As the workshop was approaching its end, there was a sense of relief and contentment among all the students present there. The thing that caught everyone's eye was, even though the stipulated time that was provided was crossed, she made no compromise to what she was there for and continued the same with utmost dedication. It was one of the most fruitful workshops for all the attendees and the knowledge that was gained is going to stay perpetually.

DELVE concluded with the workshop. And we would like to thank Prof. Manoj Sinha(Principal), Dr. JK Singh(Teacher in-charge), Ms. Cherry Uppal(Teacher Coordinator) and all the management faculty members for their continuous support throughout the event. The amount of contentment one could see on the faces of all the attendees was the fruit of the hard work of all the volunteers of Sankalp, who tried their level best for the success of the event.
