REPORT ON INDUSTRIAL VISIT TO PLASTIC UDYOG, KANGRA, HIMACHAL PRADESH

DATE: 8th April 2022

SANKALP - THE MANAGEMENT SOCIETY conducted another Industrial Visit in response to popular demand from the students. The visit took place on April 8 at Plastic Udyog, Kangra, Himachal Pradesh. Ms. Kavita and Mr. Sanket Shekhar, our convenor, accompanied the students on this trip. The primary aim of this industrial visit, especially outside Delhi, was to expose students to the fact that factories are not always large and machine-oriented; labor-oriented factories also exist, particularly in places like Himachal Pradesh.

The students gained valuable insights during their visit, and their contentment was evident throughout the event, reflecting the hard work of all the Sankalp volunteers who dedicated themselves to ensuring the success of these events. We extend special gratitude to Hon'ble Principal Mr. Manoj Sinha and Teacher In-Charge Prof. J.K. Singh for their unwavering support, which played a crucial role in conducting these events seamlessly.
