

ARYABHATTA COLLEGE & MINISTRY OF TEXTILES

Promotion of Arts, Crafts and Science

Aryabhatta College collaborated with the Development Commissioner (Handicrafts), and National Centre for Design and Product Development (set up by Ministry of Textiles) through its own cultural society - Nibs & Brushes.

On the occasion of International Astronomy Day and to celebrate Aryabhatta, the earliest and a major pioneer of Indian mathematics and Indian astronomy after whom our College is named, a series of artworks around the themes of universe, astronomy and life were undertaken with the dual aim of promoting both the knowledge and the artistic craft and indigenous skills of Indian heritage. For this competitions were held and renowned artisans were invited to paint the college walls in Madhubani school of painting depicting Tree of Life, universe, Indian traditions and so on. On the occasion coinciding with our College annual day, a statue of goddess Saraswati and one of Aryabhatta would be installed/unveiled in the college.

It has been a matter of extreme honour, pride and happiness for Nibs and Brushes to be able to do what they have always wanted to on such a huge scale with the assistance and guidance from Development Commissioner (Handicrafts) and NCDPD, Delhi. An extension activity on such a large scale allowed students to learn under the tutelage of best artists and hone their skills and for earning from extended spaces outside of traditional confines of lectures and theories.

The society expresses its utmost sense of gratitude to both these organizations under the Ministry of Textiles for its unstinted support and encouragement.

INTERNATIONAL ASTRONOMY DAY

Aryabhata College in association with Development Commissioner (Handicrafts) and National Centre for Design and Product Development invites entries for painting and Photography Competitions on the theme of Astronomy.
