DESIRES UNVEILED BY WIND

The serene stars and
The burning moon remind me
Of my farfetched desire

A sharp breeze makes me question
if this frenetic stream of emotions
for him is a cue?
And should I flow along with it?
But what if I drown?
So should I draw myself away from him?
Looking at the leaden sky
I think I want to drown in him
Then I'd know the depths they talk about
And maybe we'd explore
the sky together

Funny how the open sky feels
like engulfing my thoughts
along with my existence
The wide deep ocean,
makes me want to fly
and the breeze,
synonymous with soothing
stirs up my insides.
